PROJECT / PROGRAM MANAGEMENT • TRAINING & DEVELOPMENT • OPERATIONS • CONTINUOUS IMPROVEMENT

PROFESSIONAL SUMMARY

Accomplished Project / Program Manager with more than 20 years of experience within a large, diverse organization. Expertise in Project, Program, and Operations Management, responsible for planning, executing, and analyzing processes and procedures for critical services to global operations. A natural communicator, effectively liaising at all levels, adept at developing and empowering teams while establishing focus and ensuring a methodical approach to projects. Success derived from application of lessons learned analysis and industry best practices to identify gaps, improve processes, and solve problems while managing specialized teams, high value assets, and resources. *United States Air Force Veteran.*

AREAS OF EXPERTISE

Project Management	Program Management	Operations Management
Stakeholder Engagement	Project Planning – Delivery	Technical Project Management
Change Management	Budget / Resource Oversight	Analytical Thinking / Analysis
Lean / Process Improvement	Training & Development	Instructional Design

SAMPLE PROJECTS DELIVERED

PROJECT MANAGER – SOFTWARE INSTALLATION. Identified key business requirements and user / project goals to conduct computer security software install and server decommission to comply with new security practices. Developed change management plan by determining how changes would be addressed and controlled and used the change management plan to integrate approved changes to meet expectations. Used inspections and UAT to verify deliverables met established quality standards and obtained sponsor acceptance of the deliverables (delivered two weeks early) to confirm the scope was achieved.

PROJECT MANAGER – PROCESS IMPROVEMENT. Obtained sponsor's charter approval to conduct a process improvement project to reduce the number of lost dental records, currently at a 30% loss rate. Developed scope management plan and WBS to establish the approved project scope and used motivation theories and coaching techniques to maximize team performance. Used lessons learned to enable continuous incremental project improvement and transferred deliverables / ownership to the assigned stakeholders per the project plan. Process Improvements resulted in a 20% reduction in lost records.

BA, Political Science, International Relations
CERTIFICATIONS: PMP, Systems Acquisition Management Certificate (Project Lifecycle), Aviation Safety Certificate, Commercial Helicopter Pilot Certificate

Creative and resourceful in developing strategies to implement long-term, high impact projects in Safety, Logistics, Human Resources, and Curriculum Development. Excels in dynamic, multi-functional environments, effectively coordinates across organizations at all levels, to achieve project deliverables. Builds cohesive teams and uses depth of experience gained through 20-year career in the United States Marine Corps, coupled with project management methodologies, to deliver projects on time and in line with organizational strategy. Open to Program Management or Project Management leadership role with an organization that values dedication, communication, and a commitment to organizational objectives.

AREAS OF EXPERTISE

Program Management Organizational Development Acquisition Management
Project Lifecycle Management Compliance - Investigations IPT Leader
Quality Assurance Finance & Budgeting Milestone & Metrics

PROJECTS DELIVERED

- Organizational Development: Created efficiencies, processes and reporting procedures to support the creation of a 260-person logistics organization with eight departments. Developed project charter, identified stakeholders, reported requirements, human resources plan, and defined and verified scope of duties to meet a new work breakdown structure. Led to new administrative and communication processes and the Marine Corps' nomination as the Maintenance Unit of the Year (Small Category).
Training: Managed 10-person team to redesign leadership training in an 1800-hour curriculum, implementing new instruction, updated concepts, and new teaching and testing techniques to create training efficiencies. Identified stakeholders, collected requirements, estimated activity durations, performed quality control, structured curriculum, and controlled schedule to ensure timely completion of an experiential based curriculum.
Acquisitions: Created the project management methodology for a logistics unit supporting 8 internal sections, 3 coequal units, and multiple units around the National Capital region. Created the prioritization process, funding assessment, and reporting process for all small and large projects and acquisitions: Montford Point Educational Park, multi-year MILCON projects for campus modernization, and the remodeling and expansion of the third-largest Marine Corps Armory.

LEADERSHIP - Cross-functional team leadership, within complex environments, and directly responsibility for over 260-personnel with 10 direct reports and 70 second-tier reports. Effective in staff management, mentorship, directing operations, project/program management, administration, budgeting, staff development, and process improvement. Led the Quality Assurance effort resulting meeting expectations and attaining the Marine Corps' nomination as Maintenance Unit of the Year (Small Unit Category). Served as the Acquisition and Project Manager Lead for the Marine Corps' premier leadership school.

SUPPLY / LOGISTICS - Program manager for a multi-tiered logistics support organization, executing supply chain management, facilities maintenance, and vehicle maintenance for accounts up to \$200M, 330 vehicles, and 66 buildings, supporting 1500 personnel in continuous operations in accordance with ISO 9001 principles.

STAFFING MANAGEMENT - Led the Integrated Project Team (IPT) for the organizational reduction of personnel and assets. Reduced personnel and equipment for a logistics unit by 50% and provided support limitations to alter training evolutions in order to meet strategic requirements. Anticipated HR requirements for a 62-person recruiting team that experienced a 50% annual turnover rate.

SAFETY / RISK MANAGEMENT - Safety, risk management, and OSHA compliance oversight, achieving 10,000 mishap free flight hours and a 20% reduction in vehicle accidents through proper application of risk management principles.

Leadership	Budgetary Oversight	Organizational Development

KEY ACHIEVEMENTS & DIFFERENTIATORS

- Managed accountability and maintenance programs for over \$2.4B of equipment, 500 facilities and real property, managed complete inventory of 10M items, and identified \$100M of account discrepancies, significantly impacting equipment accountability and readiness.
- Flawlessly planned and executed worldwide annual movement of over 26,000 personnel and 500 short tons of equipment for 400+ separate missions using multiple means of transport.
- Served as lead customer representative for seven major facility construction projects (\$54M) and a dozen minor construction facility improvement projects (\$2.2M.)
- Project leader for design and implementation of Human Resources Information System “Marine Online.” Responsible for the design, development, testing, production, fielding, and operations and support of this innovative new HRIS system. Successful implementation of the system created first year ROI of \$2M, with life cycle savings of \$58M.
- Marine Online won three National IT Innovation Awards in 2003 - the DoD CIO Award, Department of the Navy eGov Award, and the 2003 Government Computer News (GCN) Award.
- Chief Architect in planning operations and US support to international forces in West Africa; establishing and leading a US interagency working group to plan support and resolve policy issues. Plan was cited as a future model in the 2013 National Security Strategy.
- Key planner for developing logistics concept of operations for complex international operations, future planning, and realignment initiatives in Iraq.
- Led effort to reorganize entire organization to become capable of worldwide relocation to operate in an austere environment in support of complex operations or humanitarian relief efforts. Central to the initiative were the establishment of a motor transport company with 110 drivers & mechanics and over 150 trucks of various cargo capacities.

Results oriented Leader with over 12 years of experience in Project, Human Capital Management, Human Resource Information Systems, and Training & Development leadership. Utilizes breadth of experience and project management lifecycle / methodologies to lead programs affecting thousands of employees worldwide, with responsibility for budgets up to \$60K, assets valued at over \$11M, and management of over 90K hours of personnel training initiatives. A natural communicator, as a liaison across organizations, and at all levels, to plan, schedule, and execute project deliverables per customer guidelines. Personnel leadership includes successfully mentoring staff to achieve forward career progression and certification.

Open to Project or HRIS role with an organization seeking an accomplished professional with a passion for training & development, goal attainment, and total customer satisfaction.

AREAS OF EXPERTISE

Human Resources	Training & Development	Leadership & Mentoring
Personnel Management	Organizational Leadership	Team Building & Development
Change Management	Project Planning / Implementation	Resource Management

KEY ACCOMPLISHMENTS

- Led and staffed 190 training engagements with 244 training personnel, across eight organizations, in seven different locations, resulting in successful certifications for 15 units worldwide.
- After a catastrophic loss of master scheduling program, ensured continuity and spearheaded the restoration efforts of 41 assessors to populate 29 events, covering nearly 3K man-hours.
- Oversaw the complete user interface redesign for the Navy's placement portal, including customer needs assessment, beta testing, and process refinement. This improved the 700+ user experience, reducing man power placement requests processing time by 25%, and saving the Navy \$200K in contractor costs.
- Streamlined organizational training, increasing ship's availability for missions by 10%.
- Conducted 120 performance reviews, resulting in a 25% above average promotion rate for mid-level employees.

SAMPLE PROJECTS DELIVERED

Project Manager to establish a forward deployed Criminal Investigation Division / Army Criminal Investigation Command office in Kuwait and in Iraq. Directed project initiatives, identified key stakeholders, and reviewed charter to confirm project scope, risks, issues, assumptions and constraints. Evaluated project risks, and executed tasks defined in project plan. Identified new risks and took corrective actions. Closed project by updating project records and documents, resulting in successful establishment of Kuwait and Iraq offices.

Pre-Deployment train-up program was established for combat deployment. As Project Leader, responsible for directing a train-up schedule. Defined project scope, gathered and documented requirements, and developed a communication plan. Executed tasks defined in project plan, implemented approved changes, obtained project resources. Reported performance and closed the project by successfully creating and distributing final project report for train-up for deployment.

The Target Analysis project objective was to analyze thefts of government furniture. As Project Manager, responsible for directing project initiatives. Developed project charter, created work breakdown structure, and divided and prioritized schedules. Implemented approved actions and workarounds, reported performance and verified scope of project. Created and distributed final project report, and measured customer satisfaction, resulting in the identification of a cost of loss to Army of over \$79M.

SAMPLE PROJECTS DELIVERED

ADVISOR TO PROJECT SPONSOR – Afghan National Army Training Program Development to implement training program for providing the capability to sustain independent long-term stability and security. Identified and documented risks and constraints, and created Work Breakdown Structure and WBS dictionary. Held team building activities, updated high level risks, and gathered and archived lessons learned.

PRIMARY PROJECT LEADER – Property Accountability project to account for, locate, return, and recover funds for missing equipment and materials purchased during global war on terrorism. Assessed project feasibility within given constraints, determined and created planning requirements and gained approval of plan. Managed project resources, evaluated performance and influenced factors of deviation from the plan. Gained final acceptance of deliverables.

PROJECT MANAGER – Process Improvement project for improvement of existing processes and procedures in disseminating mission critical orders and taskings throughout the organization. Created initial expectations for scope, gaining approval from stakeholders. Developed project schedule based on WBS and maximized team performance with limited time constraints. Communicated project status to key stakeholders and transferred ownership of deliverables to operations team.

Dynamic and technically proficient with experience leading teams in global environments.

Specialties:

- Strategic Planning
- Process Design & Implementation
- Program & Project Management
- Supply Chain Management
- Leadership Development
- Customer Relationship Management

PROFESSIONAL EXPERIENCE

PRODUCTION SUPERVISOR - Directed operations and maintenance activities in an FDA regulated manufacturing facility.

- 44 direct reports; 20 full-time operators, 4 mechanics, & 20 temporary-hire operators.

U.S. MARINE CORPS - (CAPTAIN / COMMISSIONED OFFICER)

TRANSPORTATION DEPARTMENT MANAGER - Directly responsible for \$18M in equipment & rolling stock and a 127-member department comprised of logistics operations & maintenance sections. 15 direct reports, 112 indirect reports.

- Global Supply Chain & Fiscal Officer - Planned, developed, and led the overseas procurement and asset accountability program for an organization of 1,300 members and \$144M in assets. Managed annual budgets in excess of \$1.6M.

SUCCESSFUL PROJECTS

INTERNATIONAL SUPPLY CHAIN DEVELOPMENT AND RESTRUCTURING

- Led project team of 13 in development, test, and implementation of a global sourcing and procurement system to support an international organization comprised of over \$150M in assets dispersed to three ships and four foreign countries.
- 1,800+ stakeholders with direct & indirect procurement requirements.
- Integrated and aligned inter-agency resources within the Department of Defense and foreign governments to leverage multiple channels of supply.
- Utilized international logistics hubs, air & sea transportation assets, and internal support cells and echelons of supply.
- End result – average fill time of 11 days on critical repair parts shipped to remote locations.

ORGANIZATIONAL MERGER / ACQUISITION

- Led project team of 11 in acquisition of \$100M in capital equipment and 300 people from five organizations.
- Asset management program, policies and procedures to improve performance capabilities.
- Repeated implementation in delivery of four similar initiatives.

TRANSPORTATION & LOGISTICS SUPPORT EXERCISE

- Led project team of 127 in logistics capabilities analysis of an organization of 900 members / \$235M equipment.
- Developed 24 page SOP and training plan to bridge gaps identified with evaluation criteria during execution phase.

CONTINUING PROCESS IMPROVEMENT INITIATIVE

- Led project team of 14 through multiple lean process improvement projects in a manufacturing facility.
- Improved liquid filler washout procedure saving \$25K of wasted material annually. Identified training gaps with respect to quality and labor utilization - Improved labor efficiency to 109%.

Project / Program Management	Operations Management	Aviation / Aerospace
Project Lifecycle Management	Requirements Definition	Identification of Deliverables
Timeline Development	Project Scope / Resources	Milestone & Metrics
Risk Assessment / Analysis	Validation of Project Alignment	Continuous Improvement

KEY PROJECTS DELIVERED

- Overhauled existing Unit Inspection program to pass major organization inspection. Identified key deliverables by conducting program analysis to ensure operational readiness.
- Successfully led Personnel Logistics Movement project, consisting of a team of 10 multi-divisional stakeholders, to relocate 1,500 personnel. Applied analysis of 'lessons learned' from previous projects, facilitated effective communication among divisions, and developed a Work Breakdown Structure (**WBS**). Transferred ownership to key stakeholders upon project completion.
- Directed multi-stakeholder Base Realignment project to integrate and deliver high value assets, ensuring efficient and expeditious transport of equipment and personnel. Identified high levels of risk and constraints based on environment and organizational factors.
- Led project to establish work center located in an austere environment, successfully implementing project plan, achieving all deliverables. Managed changes by following the Change Management Plan.
- Directed multi-stakeholder Personnel Recovery Program Development project, to certify operational preparedness. Utilized Organizational Process Assets (**OPAs**) to implement corrective actions to meet project requirements.
- Developed project charter for Quick Reference Handbook Development project, calculating Quality Management Plan, and defining standards for content based on scope. Effectively acquired project resources according to the Procurement Management Plan.
- Led multi-stakeholder Database Update project, defining roles and responsibilities centered on the human resources management plan and activity list.
- Led Multi National Insertion and Extraction project. Identified high level requirements and risks, led real-time research, and managed project team members during execution. Closed project by successfully returning all personnel and equipment to their respective organizations.
- Led Organizational Deployment of automation equipment project to prepare organization for operations in an austere environment. Ensured necessary resources to meet project requirements, and ensured work was performed to quality standards.

SUMMARY

Dedicated leader committed to project delivery, operational excellence and total customer satisfaction. Possesses expertise in all facets of project management lifecycle and delivery of strategic operational objectives. Eight years leading and mentoring diverse teams, and developing solutions to complex problems, increasing capability, improving efficiency, and delivering mission success. Highly skilled at communicating across all functional levels to guide teams toward on-time project delivery and increased operational excellence.

CORE COMPETENCIES

PMP Certification # 1914617 Project Management Operations Management
Risk Assessment / Analysis Communications & Integration Stakeholder Management
Timeline/Schedule Management Project Scope / Resources Quality Management

SUCCESSFUL PROJECTS DELIVERED

Led training/advising program for Afghan Army that focused heavily on stakeholder communication, risk management, change management, and leveraging cultural differences. Increased output by 400% while transitioning a static and operationally-stagnant unit of 150 individuals into a dynamic and independently functioning force achieving operational excellence within their market.

Developed new Standard Operating Procedures (SOPs) with key stakeholders to institute change in a high risk environment. Led team in researching, testing and implementing unconventional methods that would reduce risk while improving quality, efficiency, and safety. Final product adopted by Executive Management as framework for 900-person organization.

Led the merger of two separate departments involving flow of sensitive and compartmentalized information. Developed new tools and techniques while establishing procedures to stay within constraints/restraints. Produced an agile, efficient, and dynamic organization of 300 individuals capable of capitalizing on fleeting business opportunities, and ultimately increasing bottom line by 200%.

Led project to design and create a new company operations site. Relocated a 50-person team with associated resources while controlling flow of personnel into new location and taking corrective action for variances induced by the environment. Decisively increased market opportunity and expanded company's customer base by nearly 20%.

CAREER HISTORY
UNITED STATES MARINE CORPS

DIRECTOR, OFFICER RECRUITING, OFFICER SELECTION OFFICE
DEPARTMENT HEAD / DIRECTOR

- Led, trained, and developed a 35-person team of elite and highly specialized individuals in providing key operational support to parent organizations.

FOREIGN MILITARY TRAINING TEAM LEADER

- Led six-person team to serve as military advisors to a 140-person unit of the Afghan National Army.

STUDENT, TRAINING AND EDUCATION COMMAND
