

DoD SkillBridge Program

Vets2PM facilitates DoD SkillBridge Internships for eligible service members into companies ranging from Fortune 500 to Small Business Owners.

What is SkillBridge?

Because as a transitioning service member you can still get paid by the DoD while gaining certification & skills training, on-the-job-training (OJT), and experience by industry experts. Vets2PM trains you on hot industry certifications, and our host partners provide OJT – giving you the opportunity to gain valuable civilian work experience before you transition!

Why Vets2PM?

Vets2PM has taken an existing program and improved it by:

- **Including industry-recognized certification training (PMP, Lean, Scrum, Agile, aPHR, CompTIA Security+, Business Development Professional (BDP), Certified Manager (CM) and many more!)**
- **Facilitating Internships that are outside those Tracks**
- **Some Host Companies will include company specific training in lieu of Vets2PM training.**
